

# California Companies Participating in the California Fit Business Program

The employers listed here are active *Network for a Healthy California—Worksite Program* partners who strive to improve the health of their employees. These companies utilize the 10 simple, low-cost California Fit Business Kit tools, which create healthier worksite environments through increased fruit and vegetable consumption and physical activity. These changes encourage a healthier lifestyle, reduced absenteeism and health care costs, and an increase in productivity and employee morale.
